NOTIFICATION

Addendum

The following communication, dated 7 May 2019, is being circulated at the request of the delegation of Egypt.

Products covered: Miscellaneous domestic and commercial equipment (ICS 97.180), Protection of and in buildings (ICS 91.120)

This addendum concerns the notification of the Ministerial Decree No. 103/2019 (2 pages, in Arabic), which:

- Cancels the Egyptian Standard ES 2191 "Earthing requirements for the installation of data processing equipment" (10 pages, in Arabic), that was mandated among others by the Ministerial Decree No. 423/2005 (25 pages, in Arabic).
- Gives the producers and importers a six-month transitional period to abide by the Egyptian standard ES 8221 "chalks" (13 pages, in Arabic), which cancels and supersedes the Egyptian Standard ES 411/2004 "chalks" (10 pages, in Arabic), that was mandated among others by the Ministerial Decree No. 423/2005 (25 pages, in Arabic).

Worth mentioning is that the Egyptian Standard ES 8221 is technically identical with JIS S 6009/2013.

Producers and importers are kept informed of any amendments in the Egyptian standard through the publication of administrative orders in the official gazette.

Proposed date of adoption: 7 February 2019.

Proposed date of entry into force: 7 March 2019.
