Description:

Products covered: (ICS:23.020.35) Gas cylinders , (ICS 75.200) Petroleum products and natural gas handling equipment

This addendum concerns the notification of the Draft of the Egyptian Standard ES 3443 "Gas cylinders — Transportable refillable welded steel cylinders for liquefied petroleum gas (LPG) — Design and construction" (45 pages, in Arabic).

It should be noted that the Ministerial Decree No. 423/2005 (25 pages, in Arabic) which was formerly notified in G/TBT/N/EGY/3 dated 14 December 2005 mandated among others the earlier version of this Egyptian standard.

Worth mentioning is that this draft standard is technically identical with modification with ISO 22991:2004 (confirmed in 2018).

¹ This information can be provided by including a website address, a pdf attachment, or other information on where the text of the final measure and/or interpretive guidance can be obtained.

Producers and importers are kept informed of any amendments in the Egyptian standards through the publication of administrative orders in the official gazette.

Proposed date of adoption: To be determined.

Proposed date of entry into force: To be determined.
