

NOTIFICATION

The following notification is being circulated in accordance with Article 10.6

<p>1. Notifying Member: <u>EGYPT</u></p> <p>If applicable, name of local government involved (Article 3.2 and 7.2):</p>
<p>2. Agency responsible:</p> <p>Egyptian Organization for Standardization and Quality 16 Tadreeb El-Modarrebeen St., Ameriya, Cairo - Egypt E-mail: eos@idsc.net.eg/eos.tbt@eos.org.eg Website: http://www.eos.org.eg Tel.: 0222845528 Fax: 0222845504</p> <p>Name and address (including telephone and fax numbers, email and website addresses, if available) of agency or authority designated to handle comments regarding the notification shall be indicated if different from above:</p>
<p>3. Notified under Article 2.9.2 [X], 2.10.1 [], 5.6.2 [], 5.7.1 [], 3.2 [], 7.2 [], other:</p>
<p>4. Products covered (HS or CCCN where applicable, otherwise national tariff heading. ICS numbers may be provided in addition, where applicable): Lifts. Escalators (ICS code(s): 91.140.90)</p>
<p>5. Title, number of pages and language(s) of the notified document: Draft of the Egyptian Standard for " Energy performance of lifts, escalators and moving walks — Part 3: Energy calculation and classification for escalators and moving walks"; (26 page(s), in Arabic)</p>
<p>6. Description of content: This draft Standard specifies generic tools for estimating energy consumption of escalators and moving walks, and a consistent method for energy performance classification of existing, modernized, or new escalators and moving walks.</p> <p>It considers the energy performance during the operational portion of the life cycle of escalators and moving walks. It does not cover energy consumption and classification of the ancillary equipment, such as the following:</p> <ul style="list-style-type: none">a) lighting with the exception of comb plate lighting, step gap lighting, and traffic light (comb plate lighting, step gap lighting, and traffic light are considered essential for the operation of the equipment and are therefore not defined as ancillary equipment);b) cooling and heating and machine room ventilation;c) alarm devices and emergency battery supplies equipment, etc.;d) environmental conditions;e) consumption through the power sockets. <p>There can be other electrical loads not associated with the escalator or moving walk, and</p>

	<p>not included.</p> <p>It considers all escalators and inclined moving walks up to a rise of 8 m and horizontal moving walks with a length up to 60 m (this represents about 85 % of worldwide installed units).</p> <p>Worth mentioning is that this draft standard is technically identical with ISO 25745-3:2015 (confirmed 2020).</p>
7.	Objective and rationale, including the nature of urgent problems where applicable: Safety requirements; Quality requirements
8.	Relevant documents: ISO 25745-3:2015 (confirmed 2020).
9.	Proposed date of adoption: To be determined Proposed date of entry into force: To be determined
10.	Final date for comments: 60 days from notification
11.	Texts available from: National enquiry point [X] or address, telephone and fax numbers and email and website addresses, if available, of other body: Egyptian Organization for Standardization and Quality Address: 16 Tadreeb El-Modarrebeen St. Ameriya, Cairo - Egypt E-mail: eos@idsc.net.eg / eos.tbt@eos.org.eg Website: http://www.eos.org.eg
